EE 30 Under 30, Class of 2025 (NAAEE)

Auggie Finalist

Best Societal Impact, AWE 2026

Ines Said

Immersive artist and XR developer · Speaker

Tunisian immersive artist and XR developer. Founder of Tanit XR, a volunteer community scanning Tunisia's endangered heritage in 3D, and Lead XR Developer at Froliq. Her installations on heritage and climate have been shown at the Smithsonian and MIT, and her research is published in ACM and IEEE (Best Paper Award). She has presented everywhere from the Energy Thought Summit main stage to the inside of a Roman amphitheater.

Speaking topics

- ◆ XR for cultural heritage: volunteers, phones and Gaussian splats
- ◆ Climate & sustainability through immersive technology
- ◆ From scans to XR: practical photogrammetry pipelines
- ◆ AR for public health · Women in XR · STEM education through games

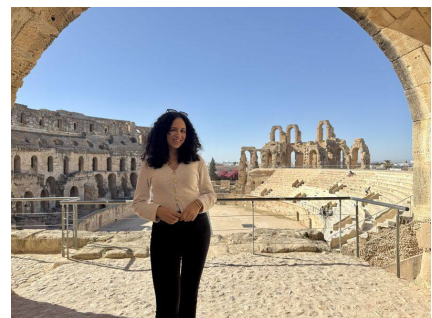

Selected stages

- ◆ Augmented World Expo (AWE) USA — speaker, 2022 & 2026
- ◆ Energy Thought Summit (ETS26) — main stage, San Antonio
- ◆ El Jem International Conference — inside the Roman amphitheater, Tunisia
- ◆ Games for Change · Global XR Conference · Inloco Gallery MetaTalks
- ◆ Smithsonian FUTURES (installation) · MIT Reality Hack · Parsons
